[File Scavenger 5.1 Crack Download](#)

The screenshot shows the File Scavenger Version 3.2 application window. The interface includes a menu bar (File, Edit, Options, View, Help), a toolbar with buttons for Advanced..., Properties, Tree View, Licenses..., and Help, and a status bar at the bottom. The main window is divided into two steps: Step 1: Search and Step 2: Recover. The search parameters are set to "Search for: *" and "Look in: E:". The search results are displayed in a table with columns: Filename, Type, Folder, Volume, Status, Size, and Modified Date. A "Viewing Tips" dialog box is open, providing instructions on how to use the Tree View button and how to sort files by column heading. The dialog box also shows a preview of the search results table and a message stating "The command took 1 second." The status bar at the bottom indicates "100% complete, 882 files displayed".

Filename	Type	Folder	Volume	Status	Size	Modified Date
...
